Editorial Review

Review

This classroom manual/shop manual text package is designed to guide students in learning to diagnose and service suspensions and steering systems on cars, SUVs and light-duty trucks. This third edition reflects the latest advances in suspension and steering technology, including flat-run tires, shock absorber mountings on SUVs, and new wheel alignment procedures. Shop safety, including handling of hazardous waste, is stressed. The classroom manual includes chapter summaries, review questions, key terms, and marginal notes. The wire spiral-bound shop manual contains step-by-step photo sequences, professional service tips, ASE-style questions, and three-hole punched and perforated job sheets for use as exercises. The author works in automotive training. - SciTech Book News March 2003

About the Author

Don Knowles has been writing automotive training materials for over 28 years, with 54 textbooks to his credit, as well as student manuals, training CDs, and short articles for service bulletins.
