### COULD WE CHANGE THE WORLD? By Norah Lang

The years of work with the patients and concerns about their needs has awakened my interest in psychology and psychotherapy. I graduated the Medical School, participated in science studies in various areas of medicine, wrote dissertation in clinical pharmacology and I am doing psychotherapy for 15 years. My wide range of interests are: science, medicine, psychiatry, psychology, physics, mathematics, astronomy, history, sociology, philosophy, and various kinds of art. I believe that by changing the way we are thinking we can change the world and ourselves, improve our health and increase well-being. I have a lot of different ideas for the future, but it is too early to say anything definite.
