# Learn CentOS Linux Network Services

By Antonio Vazquez

Learn CentOS Linux Network Services By Antonio Vazquez

Learn to set up the latest CentOS Linux network services including DNS, DHCP, SSH and VNC, Web, FTP, Mail, Firewall, and LDAP, enabling you to provide these services on your own network. CentOS continues to be a popular Linux distribution choice, and setting up your own services is a key skill for anyone maintaining a CentOS network.

You will learn how to install CentOS, and manage basic administration. You'll then move onto understanding networking, and how to set up your required services. Each chapter is written in an easy-to-digest format and teaches you how set up, manage, and troubleshoot each service. You'll be running your own network in no time at all.

What You Will Learn

- Install and set up the latest version of CentOS
- Configure and manage a wide range of network services
- Solve problems remotely and manage your network efficiently

Who This Book Is For

Anyone who wants to learn how to set up and manage CentOS Linux network services. Some previous Linux experience is beneficial, but this book is designed to be used by beginners.

Charles Bryce:

Spent a free the perfect time to be fun activity to try and do! A lot of people spent their spare time with their family, or their friends. Usually they accomplishing activity like watching television, going to beach, or picnic from the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your personal free time/ holiday? Could be reading a book could be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of book that you should read. If you want to test look for book, may be the e-book untitled Learn CentOS Linux Network Services can be good book to read. May be it is usually best activity to you.

Joseph Johnson:

As a pupil exactly feel bored for you to reading. If their teacher asked them to go to the library or make summary for some guide, they are complained. Just very little students that has reading's internal or real their hobby. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that examining is not important, boring as well as can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Learn CentOS Linux Network Services can make you sense more interested to read.
