## **Editorial Review**

### **About the Author**

Born in India, Dr. Devi S. Nambudripad has made California her home since 1976. In an effort to solve her personal health problems suffered since childhood, and to help others with similar problems, she conducted research in the U.S. over the past fifteen years resulting in the development of a new and effective approach known as Nambudripad's Allergy Elimination Techniques (Naet), for diagnosis and treatment of allergies of all types.

She has pointed the way to perfect health by combining many methods and techniques from different disciplines of medicine including Allopathic, Kinesiology, Chiropractic, and Oriental Medical procedures of Acupuncture and Acupressure. Dr. Nambudripad has received extensive training in each of these fields, both in the United States and in the Orient.

To date, thousands of patients who could not find relief elsewhere have been successfully treated for both food and environmental allergies by NAET. Dr. Nambudripad conducts training seminars regularly in NAET open to currently licensed medical practitioners. She has trained over two thousand medical professionals in her special procedure on permanent allergy elimination.
