Editorial Review

Review

Winner of the 2008 Teachers' Choice Award for Children's Books --Learning Magazine, September 2007

Solid science and decent graphic-novel style illustrations are the basis for the series. In Forces and Motion, to represent motion, some of the illustrations are blurred which may be off-putting to some. The More About section of each book sums up the topic. Inset boxes address vocabulary, interesting facts, and famous people. Web sites are accessed through FactHound. The action and story line are easy-to-follow, even for those not raised on graphic novels. These should be a welcome addition to a collection and will be enjoyed by students who like graphic formats, science, and ESOL and Special Education populations. Bibliography. Glossary. Index. Recommended. --Library Media Connection; Vol. 26, No. 2; Page 88, October 2007

Finalist of the 2007 Distinguished Achievement Award --Association of Educational Publishers, June 2007

About the Author

Donald Lemke works as a children's book editor. He has written dozens of comic books, including the Zinc Alloy series and the adventures of Bike Rider, and many chapter books for DC Comics. Donald lives in Minnesota with his beautiful wife, Amy, and their not-so-golden retriever, Paulie.

Tod Smith grew up in Rhode Island, where he attended the Joe Kubert School of Cartoon and Graphic Art. He started working in comics in the 1980s, and has been an illustrator for comics and books ever since. He loves to play music in his free time, and when he was in middle school, the Beatles inspired him to start to play the guitar. He lives in Connecticut with his wife, Candace.

Users Review

From reader reviews:

Michael Albin:

This Investigating the Scientific Method with Max Axiom, Super Scientist (Graphic Science) is great reserve for you because the content that is certainly full of information for you who always deal with world and also have to make decision every minute. This particular book reveal it info accurately using great arrange word or we can state no rambling sentences inside it. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but tough core information with beautiful delivering sentences. Having Investigating the Scientific Method with Max Axiom, Super Scientist (Graphic Science) in your hand like finding the world in your arm, data in it is not ridiculous one particular. We can say that no publication that offer you world inside ten or fifteen moment right but this guide already do that. So , this is good reading book. Hey Mr. and Mrs. occupied do you still doubt that?

Isabel McNeal:

You can spend your free time to study this book this reserve. This Investigating the Scientific Method with Max Axiom, Super Scientist (Graphic Science) is simple to develop you can read it in the recreation area, in

the beach, train and also soon. If you did not have much space to bring often the printed book, you can buy the particular e-book. It is make you quicker to read it. You can save the particular book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

Alfredo Dunn:

Is it anyone who having spare time then spend it whole day by means of watching television programs or just laying on the bed? Do you need something new? This Investigating the Scientific Method with Max Axiom, Super Scientist (Graphic Science) can be the response, oh how comes? A book you know. You are therefore out of date, spending your extra time by reading in this brand-new era is common not a nerd activity. So what these publications have than the others?

James Hanson:

What is your hobby? Have you heard that question when you got scholars? We believe that that problem was given by teacher with their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person including reading or as looking at become their hobby. You need to understand that reading is very important as well as book as to be the factor. Book is important thing to add you knowledge, except your current teacher or lecturer. You discover good news or update with regards to something by book. A substantial number of sorts of books that can you choose to adopt be your object. One of them is this Investigating the Scientific Method with Max Axiom, Super Scientist (Graphic Science).
