Lost and Found: Helping Behaviorally Challenging Students (and, While You're At It, All the Others) (J-B Ed: Reach and Teach) By Ross W. Greene

Implement a more constructive approach to difficult students

Lost and Found is a follow-up to Dr. Ross Greene's landmark works, *The Explosive Child* and *Lost at School*, providing educators with highly practical, explicit guidance on implementing his Collaborative & Proactive Solutions (CPS) Problem Solving model with behaviorally-challenging students. While the first two books described Dr. Greene's positive, constructive approach and described implementation on a macro level, this useful guide provides the details of hands-on CPS implementation by those who interact with these children every day. Readers will learn how to incorporate students' input in understanding the factors making it difficult for them to meet expectations and in generating mutually satisfactory solutions. Specific strategies, sample dialogues, and time-tested advice help educators implement these techniques immediately.

The groundbreaking CPS approach has been a revelation for parents and educators of behaviorally-challenging children. This book gives educators the concrete guidance they need to immediately begin working more effectively with these students.

- Implement CPS one-on-one or with an entire class
- Work collaboratively with students to solve problems
- Study sample dialogues of CPS in action
- Change the way difficult students are treated

The discipline systems used in K-12 schools are obsolete, and aren't working for the kids to whom they're most often applied – those with behavioral challenges. *Lost and Found* provides a roadmap to a different paradigm, helping educators radically transform the way they go about helping their most challenging students.

Editorial Review

Review

"For anyone who has had the pleasure of hearing Ross Greene talk about how to work with young people -- and who has wished that you could bottle him -- here, finally, is the bottle! He shares in clear prose how to open the doors to the communication and collaboration that give rise to real growth and understanding. His approach is so reasonable, so empathic, and so effective that having this guide is a true gift. With no jargon to overcome, and an approach grounded in the common ingredients of effective counseling, Dr. Greene offers readers a clear and good-natured map with examples of problems everyone who knows and works with children will recognize."

-- **LAURA ROGERS, EdD**, Co-Director, School Psychology Program, Department of Education, Tufts University

From the Author

"I wrote *Lost & Found* as a followup to *Lost at School*...it provides a lot of the technical information that I couldn't include in *Lost at School*, along with commentary from educators who've been implementing the *Collaborative & Proactive Solutions* model in their schools. I really wanted to make sure their voices were heard. They make it clear that transforming the ways in which we treat our most vulnerable students is not only doable but also absolutely crucial." -- *Ross Greene*

From the Inside Flap

Lost & Found is the next-step resource to the groundbreaking books *The Explosive Child* and *Lost at School*. In *Lost & Found*, Dr. Ross W. Greene provides educators, parents, and other caregivers with the practical guidance needed for implementing his empirically-supported **Collaborative & Proactive Solutions** (CPS) problem solving model with behaviorally challenging students. The CPS model helps caregivers understand and help behaviorally challenging students in ways that are non-punitive, non-adversarial, skill-building, relationship-enhancing, collaborative, proactive, and--most importantly--*helpful*.

Lost & Found is a hands-on guide that provides the details for applying the CPS model for anyone who interacts with challenging children on a daily basis. It addresses the needs of students whose difficulties meeting social, emotional, or behavioral expectations are expressed through severe behaviors. But the model also applies to well-behaved kids. *Lost & Found* is filled with illustrative stories and commentary from visionary educators who have successfully implemented the CPS model in their schools and classrooms and helped hundreds of vulnerable, at-risk children in the process.

Dr. Greene describes the process--and provides extensive examples--for identifying the skills a challenging child is lacking and the expectations the student is having difficulty meeting. Once these factors are known, it is possible to start solving problems proactively. He also describes the process for solving problems collaboratively, and provides not only multiple examples of the process but also guidance for organizing the effort in a school and coaching others in the use of the model.

Lost & Found offers a positive, proven paradigm for helping educators radically transform the way they go about assisting their most challenging students.

Users Review

From reader reviews:

Brian Crafton:

Book will be written, printed, or outlined for everything. You can realize everything you want by a guide. Book has a different type. We all know that that book is important issue to bring us around the world. Beside that you can your reading skill was fluently.
