Pro ASP.NET MVC 4

By Adam Freeman, Steven Sanderson

Pro ASP.NET MVC 4 By Adam Freeman, Steven Sanderson

The ASP.NET MVC 4 Framework is the latest evolution of Microsoft's ASP.NET web platform. It provides a high-productivity programming model that promotes cleaner code architecture, test-driven development, and powerful extensibility, combined with all the benefits of ASP.NET.

ASP.NET MVC 4 contains a number of significant advances over previous versions. New mobile and desktop templates (employing adaptive rendering) are included together with support for jQuery Mobile for the first time. New display modes allow your application to select views based on the browser that's making the request while Code Generation Recipes for Visual Studio help you auto-generate project-specific code for a wide variety of situtations including NuGet support.

In this fourth edition, the core model-view-controller (MVC) architectural concepts are not simply explained or discussed in isolation, but are demonstrated in action. You'll work through an extended tutorial to create a working e-commerce web application that combines ASP.NET MVC with the latest C# language features and unit-testing best practices. By gaining this invaluable, practical experience, you'll discover MVC's strengths and weaknesses for yourself—and put your best-learned theory into practice.

The book's authors, **Steve Sanderson** and **Adam Freeman**, have both watched the growth of ASP.NET MVC since its first release. Steve is a well-known blogger on the MVC Framework and a member of the Microsoft Web Platform and Tools team. Adam started designing and building web applications 15 years ago and has been responsible for some of the world's largest and most ambitious projects. You can be sure you are in safe hands.

Users Review

From reader reviews:

Dennis Ross:

This Pro ASP.NET MVC 4 book is not really ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This specific Pro ASP.NET MVC 4 without we know teach the one who studying it become critical in pondering and analyzing. Don't always be worry Pro ASP.NET MVC 4 can bring whenever you are and not make your handbag space or bookshelves' become full because you can have it in the lovely laptop even cellphone. This Pro ASP.NET MVC 4 having excellent arrangement in word and also layout, so you will not truly feel uninterested in reading.

Willie Collins:

As people who live in the particular modest era should be update about what going on or information even knowledge to make all of them keep up with the era that is always change and advance. Some of you maybe will update themselves by examining books. It is a good choice for you personally but the problems coming to anyone is you don't know what type you should start with. This Pro ASP.NET MVC 4 is our recommendation to help you keep up with the world. Why, since this book serves what you want and wish in this era.

Sherry Nicholson:

You are able to spend your free time to read this book this reserve. This Pro ASP.NET MVC 4 is simple bringing you can read it in the recreation area, in the beach, train as well as soon. If you did not get much space to bring typically the printed book, you can buy the particular e-book. It is make you quicker to read it. You can save typically the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Nancy Thornton:

Reading a guide make you to get more knowledge from the jawhorse. You can take knowledge and

information coming from a book. Book is prepared or printed or created from each source that will filled update of news. Within this modern era like today, many ways to get information are available for you. From media social such as newspaper, magazines, science guide, encyclopedia, reference book, new and comic. You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just looking for the Pro ASP.NET MVC 4 when you desired it?
