## **Editorial Review**

### **Review**

"This is an excellent series to give to your school library or your children! And be sure to take these along on trips to enhance your learning and fun for the entire family. Adults will learn as much as the kids!"

-- *Real Travel Adventures* (January 2004) (UNKNOWN 20040101)

"The text is lively, and the beautiful, on-location illustrations often have sidebar balloons, which add humorous commentary to the text..This series has interdisciplinary teaching written all over it. It will be useful for integrating animal and biome studies with specific geographical locations. It will likewise be used by students who have an interest in animals and nature. Recommended."
