NLP: The New Technology of Achievement By Charles Faulkner, Gerry Schmidt, Robert McDonald, Tim Hallbon, Suzi Smith, Kelly Gerling

A powerful technology for producing change.

When we first encountered NLP more than a dozen years ago, we realized it represented a paradigm shift - a completely new way of thinking that makes heightened achievement levels and personal transformation possible.

Here's the great reality about NLP: If one person can do something, anyone else can learn how to do it! Now, human excellence can be systematically studied, then reproduced. Just as you can learn to ski, drive, or use a computer, so too can you learn to apply the core achievement skills: motivation, persuasion, confidence and self-esteem.

In this program, some of the nation's outstanding NLP trainers will share the same strategies they have taught thousands of NLP Comprehensive seminar participants. You'll learn:

- How your motivation strategy works and how to use it at will.
- How to eliminate past limitations and gain confidence in your future.
- How to set your goals and future mission.
- How to apply specific processes to gain deep self-appreciation and self-esteem.
