Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran By Sven Nussbaum, Gunter Menz

This book describes recent progress in object-based image interpretation. It presents new results in its application to verification of nuclear non-proliferation. A comprehensive workflow and newly developed algorithms for object-based high resolution image (pre-) processing, feature extraction, change detection, classification and interpretation are developed, applied and evaluated. The analysis chain is demonstrated with satellite imagery acquired over Iranian nuclear facilities.

Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran By Sven Nussbaum, Gunter Menz **Bibliography**

- Sales Rank: #9127990 in Books
- Brand: Brand: Springer Netherlands
- Published on: 2008-03-27
- Original language: English
- Number of items: 1
- Dimensions: 9.30" h x .50" w x 6.00" l, .97 pounds
- Binding: Hardcover
- 172 pages

Editorial Review

From the Back Cover

The availability of new high resolution satellite data brings with it the need for new image analysis methods. Traditional pixel-oriented algorithms do not give credit to the spatial coherence of high resolution imagery. In particular, for detection and classification of man-made structures, object-based procedures are much more appropriate. The use of object features such as scale, compactness, orientation and texture, in addition to spectral characteristics, extends the possibilities of remote sensing satellite image analysis considerably.

This book describes recent progress in object-based image interpretation, and also presents many new results in its application to verification of nuclear non-proliferation. A comprehensive workflow and newly developed algorithms for object-based high resolution image (pre-) processing, feature extraction, change detection, classification and interpretation are developed, applied and evaluated. The entire analysis chain is demonstrated with high resolution imagery acquired over Iranian nuclear facilities.

Users Review

From reader reviews:

Gena Colgan:

The book Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran gives you the sense of being enjoy for your spare time. You should use to make your capable more increase. Book can to be your best friend when you getting pressure or having big problem together with your subject. If you can make studying a book Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran to get your habit, you can get far more advantages, like add your personal capable, increase your knowledge about many or all subjects. It is possible to know everything if you like start and read a guide Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this reserve?

Jimmy Maiden:

Information is provisions for individuals to get better life, information presently can get by anyone at everywhere. The information can be a expertise or any news even a problem. What people must be consider any time those information which is in the former life are hard to be find than now's taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you find the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen inside you if you take Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran as your daily resource information.

Thomas Carlson:

Reading a e-book can be one of a lot of exercise that everyone in the world really likes. Do you like reading book so. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new details. When you read a book you will get new information because book is one of various ways to share the information or maybe their idea. Second, studying a book will make anyone more imaginative. When you examining a book especially hype book the author will bring that you imagine the story how the figures do it anything. Third, you can share your knowledge to some others. When you read this Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran, you are able to tells your family, friends along with soon about yours reserve. Your knowledge can inspire others, make them reading a e-book.

Hazel Park:

Playing with family in the park, coming to see the ocean world or hanging out with buddies is thing that usually you have done when you have spare time, and then why you don't try matter that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Object-Based Image Analysis and Treaty Verification: New Approaches in Remote Sensing - Applied to Nuclear Facilities in Iran, you are able to enjoy both. It is good combination right, you still need to miss it? What kind of hangout type is it? Oh seriously its mind hangout folks. What? Still don't obtain it, oh come on its referred to as reading friends.
