## **Beyond the Fabric of Existence** By Mr Wayne M Thompson

There have been several scientific books and lecture papers written on the subject of our holographic universe but none have gone far enough as to expand peoples thinking and explain the true nature of reality. Music is a natural consequence of the pure mathematics within nature. Music is a true universal language as Music is vibrational physics and mathematics that is a language understood by the human mind. The silent music of the universe or Aether Physics from the RG Veda is the only ONE science that explains the true perfection of creation and our connection to the holographic universe. Quantum Metrics are from the RG Veda: Quantum Physicist already knowing the answer as they have taken it the RG Veda then creates complicated elongated mathematical equations to derive at their Metric, which they name after themselves. I explain how to calculate all 90 metrics contained in RG Veda using a dividend and divisor and how to apply this system of harmony to devices you can manufacture such as electric motors. I would not dare name any of the yet “undiscovered” Metrics after myself, as no man should claim Gods work as his own. Although I have examples of the RG Vedas and other sources mentioning the Vedic Meter no one to my knowledge as given a full interpretation of them and what they relate to as I have done. I have deciphered and attempted to simplify one of the most ancient of mysteries and show how to apply it. My intention in releasing this information is to enlighten humanity as to assist in the rebuilding of the foundations of science for the advancement of all. We all must aspire to a brighter future and not allow this information to remain the industrial secret of occult societies. These societies have handicapped humanity for long enough and it is time to enter into the light from the darkness and advance our civilization. The zenith is the point in the sky or celestial sphere directly above an observer. God, sees all life in all dimensions and knows all of us, we should all strive for Krsna Consciousness and free ourselves from the illusion of our material world. When there is harmony between the mind, heart and resolution then nothing is impossible.

## **Editorial Review**

### **About the Author**

I have been writing a book to explain the relevance of the Vedic Metric System and how to apply it to different devices you can make yourself that far out perform what is currently available publicly. It has now been eight years since I started this website and I would like to thank the many return viewers have given me so much positive feedback. I have tried to include as much information as I can to help people on their own journeys. I have been doing Research and Development using the Vedic System for 15 years and would like to share my finding with you all. I have manufactured different electric motors and generators using the proven principles explained within my book and wish to enlighten anyone who is interested. We have different standardized systems for measuring weight, time, temperature and pressure to name a few and over time we have all so had several different scales for music. What I would like to do is explain to you that there is only one system for everything and because of this history has been fabricated to hide this information that explains the absolute truth behind our very existence. Our standard forms of measurement used by industry around the world, the French Metric system and Imperial or English inch are there to intentionally misguide you, the Vedic Metric it is the least known only because it is the industrial secret of corporations like Sony, Toyota, Ford, Hyundai, NASA, Boeing and many more.
