The Easiest and Fastest Way to Learn Icelandic

Whether you want to travel, communicate with friends or colleagues, reconnect with family, or just understand more of what's going on in the world around you, learning Icelandic will expand your horizons and immeasurably enrich your life.

The best part is that it doesn't have to be difficult or take years to master. Thirty minutes a day is all it takes, and we get you speaking right from the first day. Pimsleur courses use a scientifically-proven method that puts you in control of your learning. If you've tried other language learning methods but found they simply didn't stick, then you owe it to yourself to give Pimsleur a try.

Why Pimsleur?

- Quick + Easy – Only 30 minutes a day.
- Portable + Flexible – Core lessons can be done anytime, anywhere, and easily fit into your busy life.
- Proven Method – Works when other methods fail.
- Self-Paced – Go fast or go slow – it's up to you.
- Based in Science – Developed using proven research on memory and learning.
- Cost-effective – Less expensive than classes or immersion, and features all native speakers.
- Genius – Triggers your brain's natural aptitude to learn.

- Works for everyone – Recommended for ages 13 and above.

What's Included?

- 30, 30-minute audio lessons
- over 60 minutes of reading instruction to provide you with an introduction to reading Icelandic designed to teach you to sound out words with correct pronunciation and accent
- in total, over 16 hours of audio, all featuring native speakers
- a Reading Booklet and User's Guide

What You'll Learn

In the first 10 lessons, you'll cover the basics: saying hello, asking for or giving information, scheduling a meal or a meeting, asking for or giving basic directions, and much more. You'll be able to handle minimum courtesy requirements, understand much of what you hear, and be understood at a beginning level, but with near-native pronunciation skills.

In the next 10 lessons, you'll build on what you've learned. Expand your menu, increase your scheduling abilities from general to specific, start to deal with currency and exchanging money, refine your conversations and add over a hundred new vocabulary items. You'll understand more of what you hear, and be able to participate with speech that is smoother and more confident.

In the final 10 lessons, you'll be speaking and understanding at an intermediate level. In this phase, more directions are given in Icelandic, which moves your learning to a whole new plane. Lessons include shopping, visiting friends, going to a restaurant, plans for the evening, car trips, and talking about family. You'll be able to speak comfortably about things that happened in the past and make plans for the future.

Reading Lessons are included beginning in Lesson 11 providing you with an introduction to reading Icelandic. These lessons, which total one hour and fifteen minutes, are designed to teach you to sound out words with correct pronunciation and accent.

The Pimsleur Method

We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his "secrets":

The Principle of Anticipation

In the nanosecond between a cue and your response, your brain has to work to

come up with the right word. Having to do this boosts retention, and cements the word in your mind.

Core Vocabulary

Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase your ability with every lesson.

Graduated Interval Recall

Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory.

Organic Learning

You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture.

Learning in Context

Research has shown that learning new words in context dramatically accelerates your ability to remember. Every scene in every Pimsleur lesson is set inside a conversation between two people. There are no drills, and no memorization necessary for success.

Active Participation

The Pimsleur Method + active learner participation = success. This method works with every language and every learner who follows it. You gain the power to recall and use what you know, and to add new words easily, exactly as you do in English.

The Icelandic Language

Icelandic, the official language of Iceland, is spoken by the island nation's entire population of just over 330,000. In addition, approximately 8,000 speakers live in Denmark and 6,500 in North America. Descended from Old Norse, Icelandic is one of the Nordic languages belonging to a subgroup of Northern Germanic languages which also includes Norwegian and Faroese (spoken in the remote Faroe Islands off the coast of Denmark). The insular Icelandic language has not changed significantly since the Middle Ages and is considered a part of the country's national identity. The government's Icelandic Language Committee, charged with maintaining linguistic purism, keeps foreign words from influencing the language by coining new terms (usually constructed by combining old words) to describe modern concepts. For example, the word "computer" did not exist in Icelandic, so a new word, *tölva*, was created. *Tölva* is

a combination of two existing words, tala (number) and völva (a prophetess or magical seer) or, literally, "number prophet".

Editorial Review

About the Author

Dr. Paul Pimsleur devoted his life to language teaching and testing and was one of the world's leading experts in applied linguistics. After years of experience and research, Dr. Pimsleur developed The Pimsleur Method based on two key principles: the Principle of Anticipation and a scientific principle of memory training that he called "Graduated Interval Recall." This Method has been applied to the many levels and languages of the Pimsleur Programs.
