Editorial Review

Review

an absolutely fascinating collection of essays. What makes these writings important is that they all originate from the early 1930s. Hence, they may cast greater light on the nature, extent and cause of the change of mind, such that there was, that led Wittgenstein from his 'early' to his 'later' thinking. Yet decisive or not, this material will surely add richness to the debate.' Daniel Hutto, British Journal for the History of Philosophy
