Editorial Review

Review

"This is the ideal book for any research methods course in the area of sociolinguistics and discourse analysis. The coverage is extremely comprehensive - from how to write your research questions to how to collect, analyse and interpret your data - written in a very accessible style by well-established young scholars whose enthusiasm for their topics is infectious. With its captivating examples, and practical advice (including how to use basic statistical tests), it will prove a boon both to students and experienced researchers."

- Janet Holmes, Professor of Linguistics, Victoria University of Wellington, New Zealand

"With its comprehensive coverage, this refreshing book provides a useful guide for doing research alongside thoughtful discussion of key research issues. As well as traditional qualitative and quantitative approaches, chapters cover corpus research, various forms of discourse analysis, narrative analysis, multimodal analysis, linguistic ethnography and much more. It will be essential reading for both beginning students and experienced researchers."

- David Barton, Professor of Language and Literacy, Lancaster University, UK

"An impressive collection that brings together a wide range of methods and analytical approaches in the study of language use. Chapters cover "the basics", including extensive illustration, while also exploring problems, controversies and debates within the field. A valuable resource for research students in linguistics."

- Joan Swann, Senior Lecturer and Director of the Centre for Language and Communications, Open University, UK

'Offers practical and theoretical advice and covers formal, computational, quantitative and qualitative research methods in detail.' (*Times Higher Education Supplement*)

"An impressive collection that brings together a wide range of methods and analytical approaches in the study of language use. Chapters cover "the basics", including extensive illustration, while also exploring problems, controversies and debates within the field. A valuable resource for research students in linguistics."

- Joan Swann, Senior Lecturer and Director of the Centre for Language and Communications, Open University, UK

... very well presented and the topics chosen are very relevant... Examples are provided in great detail and problems are worked out with detailed explanations, which go a long way in making many of the discussions quite lively and informative... The book is definitely going to be a useful tool to many researchers. (Sanford Lakoff)
