Peripheral Nerve Blocks: A Color Atlas From Brand: Lippincott Williams Wilkins

Thoroughly updated and greatly expanded for its Second Edition, this best-selling full-color atlas is a step-by-step guide to performing peripheral nerve blocks. For each nerve block, the book provides detailed information about indications, patient positioning, needle selection, drug selection and volume, anatomic landmarks, approach, and technique and offers tips for maximizing effectiveness and minimizing complications. Full-color clinical photographs and line art demonstrate anatomic landmarks, patient positioning, and techniques.

This edition features expanded coverage of the pharmacology of local anesthetics, a new section on pain blocks, and increased emphasis on continuous infusion blocks and pediatric peripheral nerve blocks. New chapters on upper and lower extremity innervation and facial blocks are also included.

Editorial Review

Review

AANA Journal (An official publication of the American Association of Nurse Anesthetists), Volume 72, Issue 3 -- "Chelly's text is concise, thorough, and provides an abundance of clinical tips and appropriate indications for peripheral nerve blockade. The atlas is well organized and the basic fundamentals of peripheral nerve blocks are well described. Chelly includes an extensive section on continuous block techniques that may find increasing popularity in practice. The section devoted to pediatrics is quite useful. This is an excellent text that is comprehensive and well organized and a useful regional reference for any practitioner."

Users Review

From reader reviews:

Johanna Hernandez:

What do you about book? It is not important together with you? Or just adding material when you need something to explain what your own problem? How about your time? Or are you busy particular person? If you don't have spare time to try and do others business, it is give you a sense of feeling bored faster. And you have free time? What did you do? Everyone has many questions above. The doctor has to answer that question simply because just their can do this. It said that about book. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this Peripheral Nerve Blocks: A Color Atlas to read.

James Lindberg:
