Sheet Metal Stamping Dies: Die Design and Die Making Practices By Vukota Boljanovic

Finally, in a single volume, a reference that presents engineering-level information on press-working sheet metal, die design, and die manufacturing!

Concentrating on simple, practical methods, this book will be an invaluable resource for anyone looking for detailed information about die design and the manufacture of stamping dies, particularly practicing die designers, press engineers, tool and die maintenance technicians, students of die design, and advanced apprentice die makers.

Features

Emphasizes the basic theory of sheet metal plastic deformation as an aid in understanding the manufacturing processes and operations that are necessary for successful die design.

Features the essential mathematical formulas and calculations needed for various die operations and performance of die design.

Illustrations feature complete assembly drawings for each type of die

Provides a complete picture of the knowledge and skills needed for the effective design of dies for sheet metal cutting, forming and deep drawing operations, highlighted with illustrative examples.

Provides properties and typical applications of selected tool and die materials for various die components.

Offers a complete picture of integral CAD/CAM systems for die making, EDM machining, and wire EDM practice

Sheet Metal Stamping Dies: Die Design and Die Making Practices By Vukota Boljanovic Bibliography

- Sales Rank: #456339 in Books
- Brand: Brand: Industrial Press
- Published on: 2012-08-03
- Original language: English
- Number of items: 1
- Dimensions: 9.00" h x .60" w x 6.00" l, .0 pounds
- Binding: Hardcover
- 300 pages

Editorial Review

About the Author

Vukota Boljanovic has spent more than 35-years in applied engineering in the aircraft and automotive industries and also in education. He has B.S., M.S. and Ph.D. degrees in mechanical engineering and worked in Europe for many years in both academia and industry. He is the author of five books, including from Industrial Press, Sheet Metal Forming Processes and Die Design (2004) Die Design Fundamentals, Third Edition (2005), Applied Mathematical and Physical Formulas (2006) and Metal Shaping Processes (2009). He has contributed updated practical material on sheet metal design, including punches, dies, and presswork, and on manufacturing processes to Machinery's Handbook, 28th and 29th editions. Vukota has written numerous technical papers and has been recognized by the aircraft industry and academia for several of his contributions to manufacturing processes. Before recently retiring, he spent five years working in the American automotive industry.

Users Review

From reader reviews:

Sylvia Harrington:

Do you have favorite book? For those who have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each guide has different aim or goal; it means that guide has different type. Some people really feel enjoy to spend their the perfect time to read a book. They can be reading whatever they acquire because their hobby is reading a book. Why not the person who don't like examining a book? Sometime, individual feel need book when they found difficult problem or perhaps exercise. Well, probably you'll have this Sheet Metal Stamping Dies: Die Design and Die Making Practices.

Antoinette Hogg:

The book untitled Sheet Metal Stamping Dies: Die Design and Die Making Practices contain a lot of information on that. The writer explains the woman idea with easy technique. The language is very straightforward all the people, so do not worry, you can easy to read that. The book was authored by famous author. The author will bring you in the new period of literary works. You can easily read this book because you can continue reading your smart phone, or device, so you can read the book throughout anywhere and anytime. In a situation you wish to purchase the e-book, you can wide open their official web-site along with order it. Have a nice go through.

Carmen Annunziata:

As we know that book is significant thing to add our information for everything. By a book we can know everything you want. A book is a list of written, printed, illustrated or even blank sheet. Every year ended up being exactly added. This reserve Sheet Metal Stamping Dies: Die Design and Die Making Practices was

filled regarding science. Spend your time to add your knowledge about your science competence. Some people has several feel when they reading the book. If you know how big benefit of a book, you can experience enjoy to read a guide. In the modern era like at this point, many ways to get book you wanted.

Ronald Malone:

What is your hobby? Have you heard that question when you got college students? We believe that that problem was given by teacher to the students. Many kinds of hobby, All people has different hobby. And you also know that little person such as reading or as examining become their hobby. You should know that reading is very important and also book as to be the point. Book is important thing to include you knowledge, except your own teacher or lecturer. You see good news or update in relation to something by book. A substantial number of sorts of books that can you go onto be your object. One of them is niagra Sheet Metal Stamping Dies: Die Design and Die Making Practices.
