Critical Care Medicine at a Glance By Richard M. Leach, Jeremy P. T. Ward, J. T. Sylvester

Critical Care Medicine At a Glance provides an accessibly concise introduction to critical care medicine. It covers the core knowledge required by students and junior doctors for clinical attachments in critical and intensive care unit setting.

The book follows the easy-to-use At a Glance format of double page spreads composed of clear memorable diagrams that support accompanying key facts and essential information.

The first part introduces key themes and covers general information, including looking at the management of the critically ill patient, oxygen transport and respiratory management, arterial blood gases and acid base balance and end of life issues. The correct use and dosage of drugs and what specialist equipment is necessary are also included. The second part is divided by systems, and examines critical illnesses in detail, their symptoms and causes and how to deal with every aspect in a critical care situation.

Part three looks at Surgical aspects covering topics from Trauma, Head injury, Chest trauma, Acute Abdominal Emergencies, Obstetric Emergencies, Burns, Toxic Inhalation and Electrical injuries. The book provides very much a hands-on approach to dealing with life-or death situations, providing examples and guidance on how to work effectively in a critical or intensive care unit.

Critical Care Medicine At a Glance will be an essential resource for students, junior doctors, and specialist nurses. It is ideal for clinical attachments and for those wishing to continue in critical care training. This book is designed to be an invaluable life-saving reference text and will fit even the tightest budget!

Pre-publication review quote

"A good introductory text to those wishing to continue in critical care training.the PRHO would find it useful to provide a quick summary of the likely management of the critically ill on his/her inpatient list"

Senior House Officer, John Radcliffe Hospital, Oxford

Editorial Review

Review

"Critical Care Medicine at a Glance is very user friendly, with a good balance between text and diagrams.

I think this book would come in handy for the A&E attachment in the third year, Obs&Gynae in the fourth, and surely for most of the general medicine and surgical attachments in the fifth."

-Black Bag, Bristol Medical Magazine. Winter 2005.

From the Back Cover

Critical Care Medicine At a Glance provides an accessibly concise introduction to critical care medicine. It covers the core knowledge required by students and junior doctors for clinical attachments in critical and intensive care unit setting.

The book follows the easy-to-use At a Glance format of double page spreads composed of clear memorable diagrams that support accompanying key facts and essential information.

The first part introduces key themes and covers general information, including looking at the management of the critically ill patient, oxygen transport and respiratory management, arterial blood gases and acid base balance and end of life issues. The correct use and dosage of drugs and what specialist equipment is necessary are also included. The second part is divided by systems, and examines critical illnesses in detail, their symptoms and causes and how to deal with every aspect in a critical care situation.

Part three looks at Surgical aspects covering topics from Trauma, Head injury, Chest trauma, Acute Abdominal Emergencies, Obstetric Emergencies, Burns, Toxic Inhalation and Electrical injuries. The book provides very much a hands-on approach to dealing with life-or death situations, providing examples and guidance on how to work effectively in a critical or intensive care unit.

Critical Care Medicine At a Glance will be an essential resource for students, junior doctors on foundation programmes, and specialist nurses. It is ideal for clinical attachments and for those wishing to continue in critical care training. This book is designed to be an invaluable life-saving reference text and will fit even the tightest budget!

Users Review

From reader reviews:

Stephen Louis:

People live in this new time of lifestyle always aim to and must have the spare time or they will get wide range of stress from both everyday life and work. So , if we ask do people have free time, we will say absolutely without a doubt. People is human not only a robot. Then we inquire again, what kind of activity do you possess when the spare time coming to you actually of course your answer can unlimited right. Then ever try this one, reading publications. It can be your alternative throughout spending your spare time, the particular book you have read is Critical Care Medicine at a Glance.

William Chapman:

Reading a book for being new life style in this calendar year; every people loves to examine a book. When you go through a book you can get a wide range of benefit. When you read ebooks, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what kinds of book that you have read. If you need to get information about your review, you can read education books, but if you want to entertain yourself look for a fiction books, these kinds of us novel, comics, and also soon. The Critical Care Medicine at a Glance will give you new experience in looking at a book.

David Browning:

With this era which is the greater person or who has ability in doing something more are more valuable than other. Do you want to become one among it? It is just simple solution to have that. What you are related is just spending your time almost no but quite enough to enjoy a look at some books. One of many books in the top collection in your reading list is usually Critical Care Medicine at a Glance. This book that is qualified as The Hungry Hillside can get you closer in turning into precious person. By looking up and review this reserve you can get many advantages.

Donald Mobley:

As a pupil exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just small students that has reading's internal or real their pastime. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that studying is not important, boring in addition to can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Critical Care Medicine at a Glance can make you really feel more

interested to read.
